

### WIS 441 Tri-County Project

**{quickdown:1859}**

The Wisconsin Department of Transportation (WisDOT) is developing plans to reconstruct the US 10/WIS 441 freeway. The WIS 441 Tri-County Project will reconstruct and expand US 10/WIS 441 from four to six lanes from Cold Spring Road to about 1/2 mile east of Oneida Street (approximately 6 miles).

**{quickdown:828}**

The project is needed to address safety concerns and traffic demands on one of the region's vital transportation routes. Currently, the crash rates on US 10/WIS 441 exceed statewide averages for similar urban freeways. Traffic volume is expected to rise on US 10/WIS 441 in the years ahead, and additional traffic lanes are needed to safely accommodate this increase. Most of the existing interchanges also need improvements. For more information, visit the [WisDOT website](#).
